

To Whom It May Concern:

I urge you to reject the NAB's petition 04-160 that limits what XM Radio can broadcast with regards to traffic and weather. I benefit greatly from their broadcasts and haven't listen to any other radio broadcasts since I have become a paid subscriber. I feel that my rights to listen to what I want, when I want are being violated - especially since this is something that I pay a monthly fee for. I don't feel that the National Broadcasters should be allowed to dictate what I can and can't listen to.

Please reject this measure - keep our freedoms free.

Sincerely,

Jaime Caris

Paid Subscriber of 2 XM accounts and member since 2002.
